

SUMMER CAMP AT STEELE ~ JULY 17-21, 2017

SCIENCE · TECHNOLOGY · ENGINEERING · ARTS · MATH

SPACE MAKERS NASA WEEK!

Open to all students

Have a blast during this fun-filled week of space-inspired investigation! Learn to solder, design a mission and explore the cosmos with visiting artists and NASA consultants, Tyler & Monica Aiello. Campers create invent and investigate space science through visual art, kinetic sculpture, model making and emerging technology. From ancient astronomy to new NASA missions, campers learn about our celestial neighborhood in new and exciting ways. They also gain great STEM skills while discovering together.

Projects include: Soldering & electronics, motorized mobiles, kinetic rovers, mission models, mixed-media art projects, sculpture, rockets and more!
